

WILDLIFE CONSERVATION INTERNATIONAL IMPACT REPORT 2020 - 2021

Wildlife Conservation International is the umbrella organisation of The Orangutan Project, International Elephant Project and the International Tiger Project

A MESSAGE FROM OUR FOUNDER

As we are now all painfully aware, 2020 was not an anomaly. Human-driven global pandemics, both a symptom and a cause of our depleted planet, are here for the long haul.

As I write, our ground partners across Sumatra and Kalimantan are burying their dead. Over the past few months we've lost friends and colleagues. It is remarkable to me that throughout this ongoing crisis, their dedication to orangutan survival has not missed a beat. Orangutan carers and vets at our funded rescue centres have now worked back to back shifts for weeks on end, isolating with the orangutans to protect them from COVID-19.

Our two new rescue alliances, the Sumatran Rescue Alliance (SRA) and Bornean Orangutan Rescue Alliance (BORA) have responded swiftly to rising numbers of displaced, stolen and illegally-held orangutans – testament to their perseverance and the horrific consequences of mass deforestation.

Throughout Sumatra and Borneo, our ranger teams have patrolled thousands of kilometres of forest, largely on foot, throughout the pandemic. Responding to surges in poaching and illegal encroachment, lockdown was never an option for them.

In Sumatran elephant habitat, special trained rangers were on location 24/7 throughout the year, just to mitigate conflict between subsistence farmers and the very last herds. For Critically Endangered Sumatran tigers, elephants and orangutans, these determined efforts are some of the very last safeguards before imminent extinction.

So, it is with humility and gratitude that we too have persevered, providing our partners with the sustained resources to undertake these vital actions, and to work with us to legally secure these last lowland ecosystems. My sincere thanks to every supporter who has contributed to this shared work over an extremely difficult year.

Our work continues against a backdrop of mass deforestation, relentless corporate greed and now, the weakening of nature protection laws in response to the pandemic. This is happening not just in Indonesia, but across the world. Added to this, our work is complex – behind every acre patrolled, every concession restored, every orangutan protected, is hours of painstaking work.

Our silver lining is that every one of our wins have a remarkable impact. Saving Indonesia's lowland rainforests is more effective for the mitigation of climate change than removing all of the world's transport systems combined. It's not without irony that this work is being undertaken by some of our world's poorest communities, for the benefit of us all.

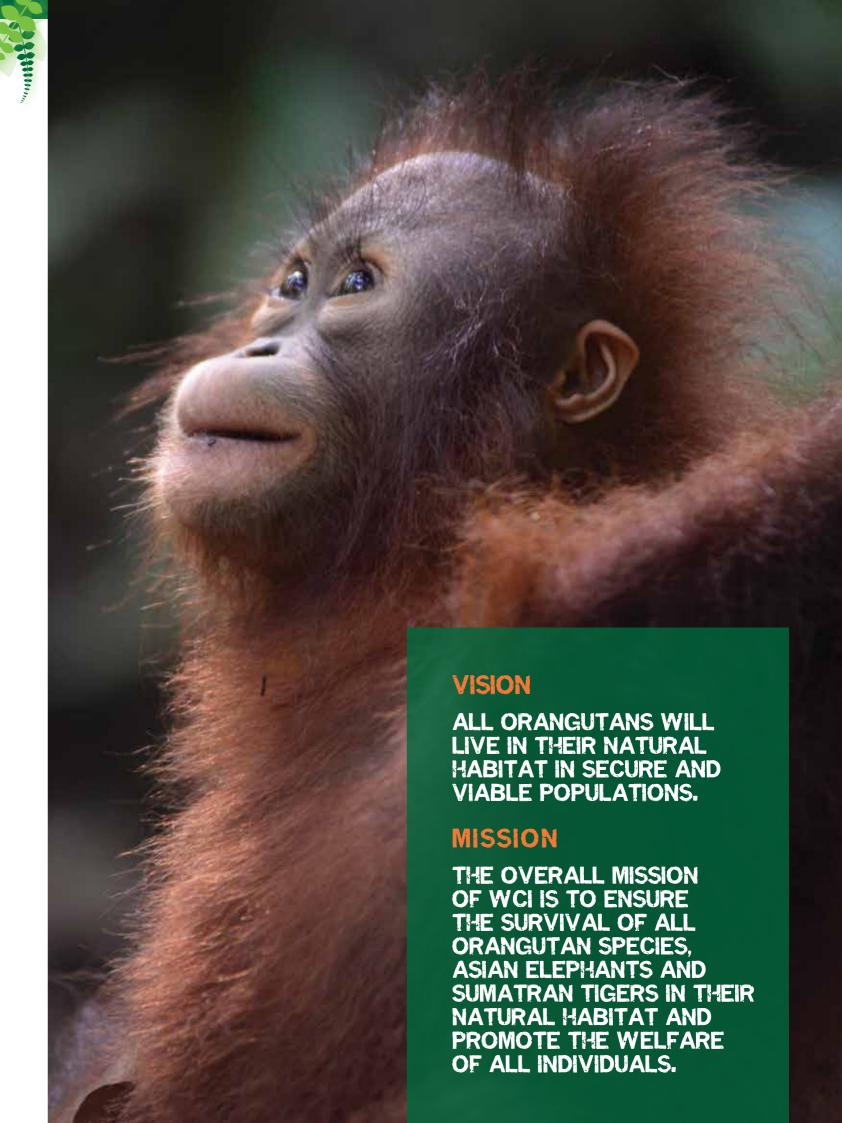

Our partners' perseverance, and your continued generosity is my reason for hope. Together, we have established a unique, holistic approach, and as you'll read over the following pages, it is an approach that is working.

Thank you for making it possible.

Yours

Leif Cocks
